Performance by exam section

Each section and its corresponding percentage of the exam appears to the left of the chart. The length of the bars represents your section-level performance. Shorter bars reflect weaker performance, and longer bars reflect stronger performance.

Note: Because the number of questions in each section varies, the length of the bars cannot be used to calculate the number of correctly answered questions, and bars cannot be combined to determine the percentage of correctly answered questions on the overall exam. If a bar is not displayed for a skill area, no questions related to that skill area were answered correctly.
