PROFESSIONAL SUMMARY

B.Tech CSE student with hands-on experience in full-stack development, AWS, Docker, and cloud deployment. Skilled in Python, Java, C++, and React.js, with strong problem-solving and programming foundations. Passionate about building scalable software solutions and eager to contribute as an entry-level Software Developer. Committed to learning new technologies and delivering high-quality results.

PROJECTS

Instagram Clone

Dec'24

- **Developed** a front-end Instagram clone using **HTML, CSS, and JS**, implementing user interface features like **image display** and **responsive design**.
 - Implemented key features like image display, profile layout, and **dynamic user interactions**.
 - Added basic user interactions like navigation between sections and dynamic rendering of content using **JavaScript** and **React** state.
 - Ensured the application is responsive across devices using **CSS** Flexbox and media queries, and managed project using **Git**.
- Tech Stack:** CSS, JavaScript, React.js, Git

Food Waste Monitoring System

Jul'24

- **Developed** a food waste monitoring system focused on reducing food wastage in hostels by tracking daily food waste data.
 - Used **JavaScript** to handle data input and basic logic for recording food waste details such as food type and quantity.
 - Stored food waste records in a **SQL** database to maintain structured data and generate simple reports for waste reduction analysis.
 - Integrated cloud technologies (**AWS**) at a basic level to store data securely and allow access from different systems.
 - Analyzed stored food waste data to identify basic waste patterns and support **data-driven** decision making for waste reduction.
 - This system helps hostels analyze **waste patterns** and take better decisions to reduce food wastage.
- Tech Stack:** CSS, JavaScript, React.js, Git

TRAINING

Internship: Self-Paced DSA by GeeksforGeeks:

Jul'24

- **Developed** a strong understanding of **data structures and algorithms**, including arrays, linked lists and stacks.
- Solved DSA problems to strengthen **problem-solving skills**.
- Gained expertise in time and **space complexity analysis** to write efficient code.
- Enhanced competitive programming skills by solving problems on platforms like **GeeksforGeeks** and **LeetCode**.

SKILLS

- **Programming & Web:** JavaScript, C++, Java, Python, HTML5, CSS3, React.js, SQL
- **Cloud & Platforms:** AWS (basics), Azure(fundamentals)
- **Tool & Concepts:** Git, GitHub, Docker (introductory), REST API concepts, Data Structures & Algorithms
- **Soft Skills:** Problem-solving, Logical Thinking, Team Collaboration, Communication

CERTIFICATES/ CERTIFICATIONS

- | | |
|--|--------|
| • Azure Administrator Associate by Microsoft | Apr'25 |
| • Full Stack Java Development by Simplilearn | Feb'24 |
| • Prompt Engineering by Coursera | Jan'24 |

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.89**

2022 - Present
Phagwara, Punjab

JagJiwan College

Intermediate; **Percentage: 69.8%**

2020 - 2021
Arrah, Bihar

Sambhawana Residential High School

Matriculation; **Percentage: 83.2%**

2018 -2019
Arrah, Bihar
